

Intranet

in times of transformation

Intranet

The intranet has evolved far beyond a place to store documents.

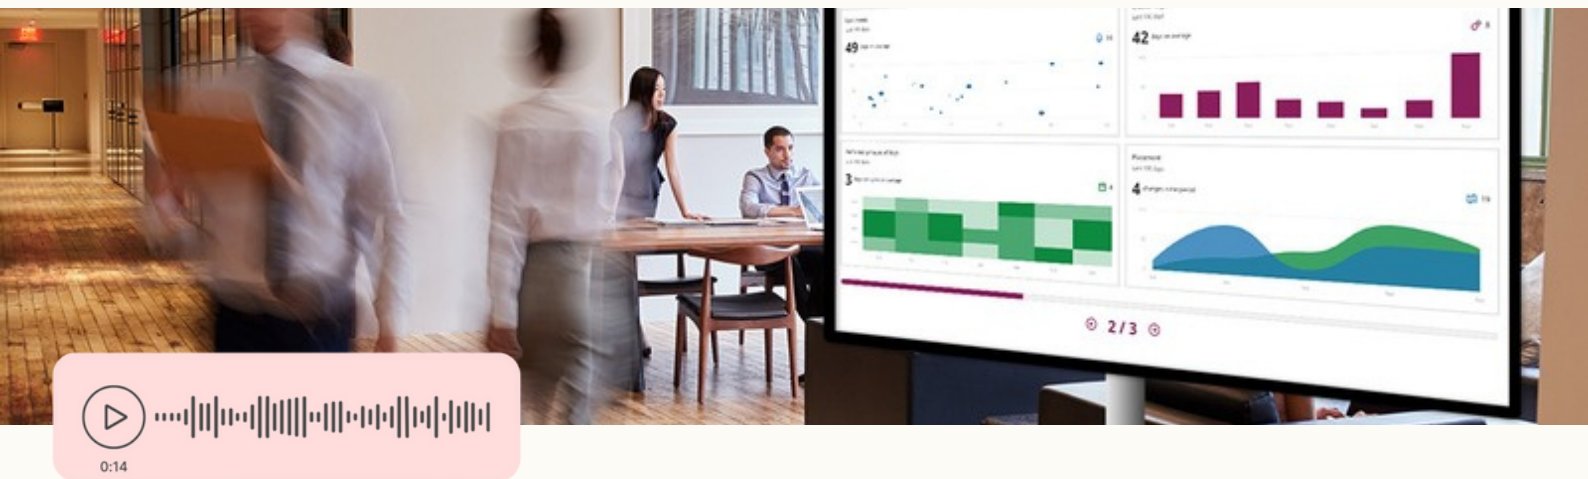

In times of change, it becomes a strategic companion – supporting people, connecting teams and strengthening culture.

Here are **14 ways** a modern intranet like Colibo empowers organisations to navigate transformation with clarity, connection and leadership.

1. Intranet

as a transformation booster

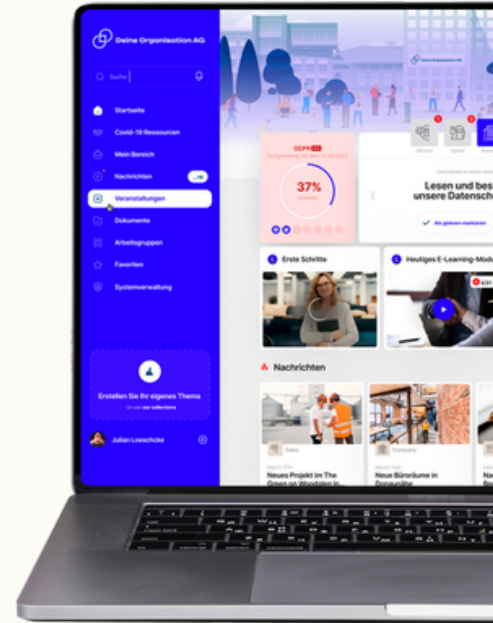

Keeps the organisation on course
– even in uncertain times.

It inspires new ways of thinking
and gives meaning to change.

2. Intranet

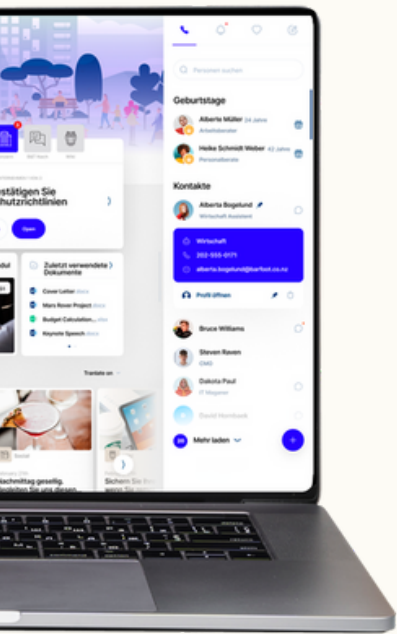

as a digital ethics space

A place for open dialogue about responsibility, sustainability, impact, and AI

– enabling conscious and future oriented action.

3. Intranet

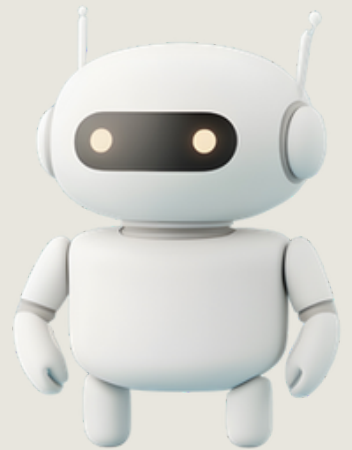

as an onboarding mentor

Supports new employees across all generations, especially in the first 100 days and highlights their expertise.

4. Intranet

as an AI enabler

Captures employee knowledge and makes it available to the right people at the right time.

Hi Anna! How can I help?

Where can I find the latest HR guidelines for compliance and security?

The latest Compliance and Security Guidelines are found here: [C&S Guidelines 2025](#)

Write a message...

5. Intranet

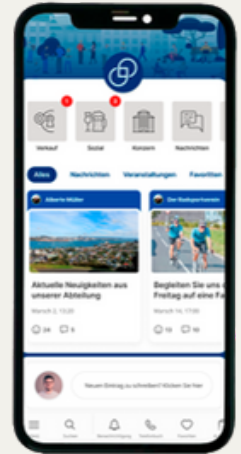

as a customer focus driver

Encourages conversations about customer needs, offers, and shared learnings.

6. Intranet

as a democracy enabler

Gives everyone in the organisation a voice that is heard, respected, and taken seriously.

22% of global employees feel lonely daily

Gallup - State of the Global Workplace 2025

7. Intranet

as a digital workspace

Creates connection across departments and locations and strengthens identity, belonging, and security, even for remote teams.

Research shows that when employees feel like they belong, they're 3.5 times more likely to contribute to their fullest potential.

Harvard Business Review

COLIBO®

8. Intranet

**as the organisation's
digital twin**

The living, breathing organisation – just online.

Especially relevant for younger generations where digital is part of everyday life.

9. Intranet

as a space for resonance

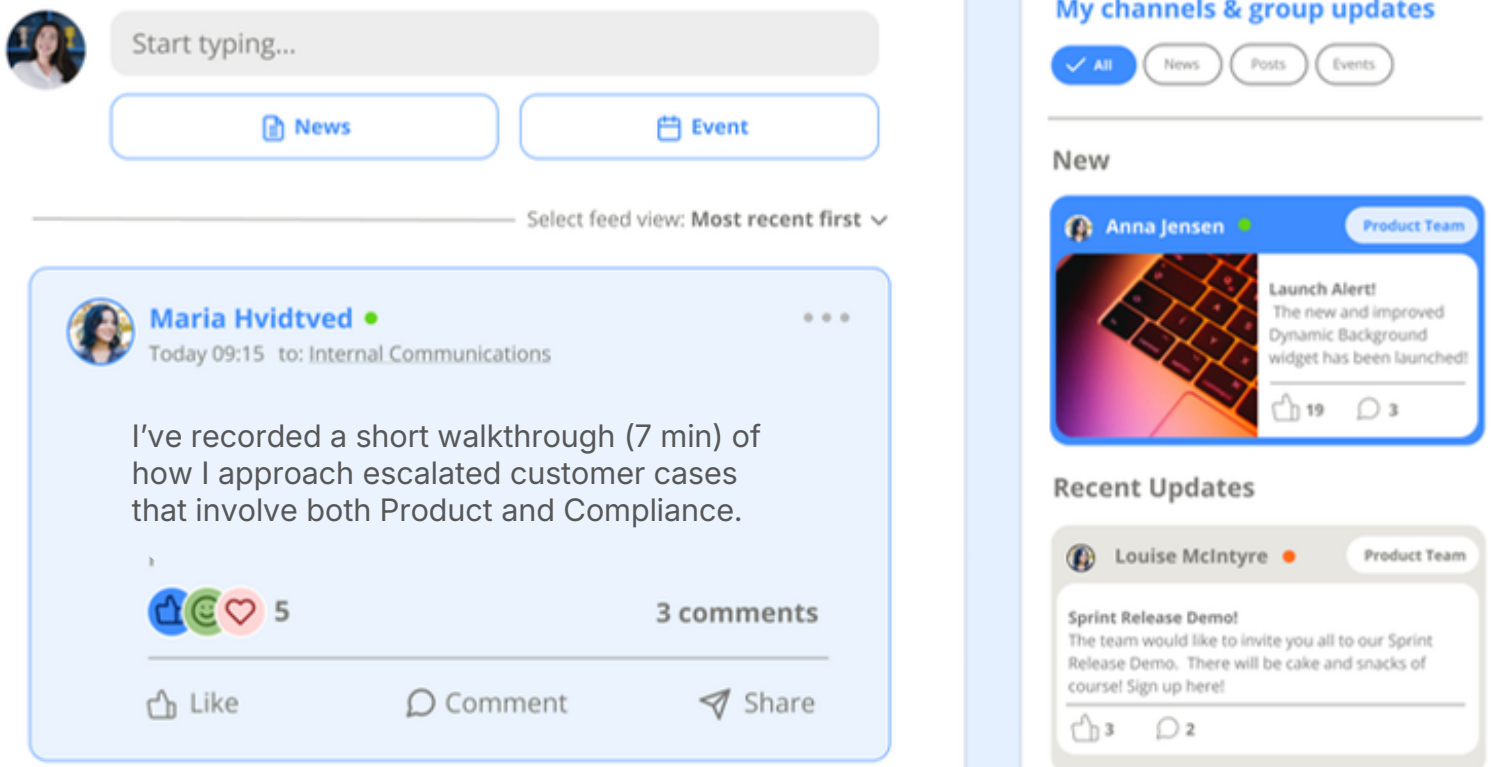

Enables meaningful exchange.
Shows questions, moods, trends,
and collective energy.

10. Intranet

as a company YouTube

An internal streaming hub for knowledge, guidance, stories, and learning – curated and created by employees.

11. Intranet

as an idea incubator

A place where small impulses spark big innovations. A think tank to decode trends and co-create futures.

12. Intranet

as a virtual coffee corner

Spontaneous moments,
micro-talks,
and social rituals
– digitally reimaged.

*Virtual coffee break
have been added to the
calendar to promote
social interaction among
colleagues*

Josefsson (2021)

13. Intranet

as a leadership lounge

Makes leadership more human, visible, and transparent – fostering engagement and shared responsibility.

14. Intranet

as a growth companion

Supports both individual and organisational development. Encourages reflection, shows progress, and strengthens self-efficacy.

Intranet

Your partner beyond tech

Our collaboration between **Colibo** and **perlrot** enables organisations to implement an intranet solution holistically.

A true symbiosis of intranet software and change consulting brought together in one aligned project.

This ensures that the full potential of your technology unfolds across the organisation, laying the foundation for meaningful and lasting change.
